WORK EXPERIENCE

Web Developer

CodSoft

08/2023 - 09/2023

CodeSoft is an IT Services and IT Consulting company. CodSoft focuses on providing practical knowledge to help students succeed in the tech industry. They offer hands-on learning through live projects and real-world examples. Their internship program allows students to work on actual projects with experienced mentors, aiming to equip them with relevant skills. The team comprises industry experts who promote a supportive and inclusive environment for learning, growth, and creativity.

PERSONAL PROJECTS

YouTube React Clone

- Developed a fully functional YouTube React clone, leveraging modern web technologies such as **React.js**, **JavaScript**, and **HTML/CSS**. Implemented key features such as video playback, and dynamic content rendering, demonstrating proficiency in front-end development and UI/UX design principles. I used **API Integration** for rendering real-time content and also used **Tailwind CSS**.

Todo List

- Built with **React**, **JavaScript**, **Tailwind CSS**, and **Firebase Storage**, this Todo List application allows users to organize and manage their tasks efficiently. The app offers a clean and intuitive user interface, making it easy to add, edit, and delete tasks. Tasks are automatically synced and stored securely in **Firebase Storage**, ensuring data integrity and accessibility across devices. With this app, users can stay organized, boost productivity, and accomplish their goals with ease.
